

Return of Certified Ruler(s) For Re-certification

For stock certified rulers and gauges (such as the model 2020A) less than 36" long, due to economies of scale it is usually more cost effective to purchase new rulers rather than have old rulers re-certified.

If you would like to know re-certification costs before you return a ruler, please contact us.

Please complete this form and return this form together with the ruler you require re-certified to:

**GEI INTERNATIONAL, INC.
Attention: Re-certification
100 BALL STREET
EAST SYRACUSE, NY 13057**

Your Information:

Company :

Address :

City, State & Zip :

Your Name :

Telephone :

Fax :

Email :

Ruler Information:

Model Number of Ruler :

Overall Length :

Serial Number :

Please email or fax this form to us when you send the ruler back to us. This will enable us to let you know if it does not arrive.

Upon receipt of your ruler(s) back, we will contact you to advise the re-certification costs and arrange payment details. After receipt of your ruler(s) and payment details, re-certification is normally completed within one to two business days.

***** Please be sure to package the ruler(s) to avoid damage in shipment. We recommend that the ruler(s) is wrapped in plastic or paper and then taped to a piece of wood that is longer than the ruler. Place this package in an adequate cardboard carton, seal and label for shipment.**
